

# Applied Science & Technology Source

The leading full-text resource for applied sciences and computing disciplines

Applied Science & Technology Source provides access to thousands of STEM journals and a diverse array of full-text content. It covers the full spectrum of applied science and technology subjects and includes content for popular areas of study such as computer science and engineering. Designed for STEM students and researchers, this research tool can aid students in completing higher level research and prepare them for careers in STEM fields.

## Content Includes:

- 374 active full-text, non-open access journals and magazines
- 298 active full-text, peer-reviewed, non-open access journals
- 94 active full-text, peer-reviewed, non-open access journals with no embargo

## Subjects Include:

- Artificial intelligence
- Bioinformatics
- Computer science
- Engineering
- Information technology
- Mathematics
- Physics
- Robotics
